

## Chapter 2: End-to-End ML Projects

Dr. Xudong Liu  
Assistant Professor  
School of Computing  
University of North Florida

Monday, 9/9/2019

# End-to-End ML Project Steps

- 1 Look at the big picture
- 2 Get the data
- 3 Discover and visualize the data to gain insights
- 4 Prepare the data for ML algorithms
- 5 Select a model and train it
- 6 Fine-tune your model
- 7 Present your solution to the test set
- 8 Launch, monitor, and maintain your system

We now divert to the Jupyter Notebook to see these steps on real data.
